#### **ART. 7) ADMISSION TEST: PROCEDURE - CANDIDATES OBLIGATIONS – SUPERVISION**

1. At the time of the test, each candidate is given an envelope prepared by the Cambridge Assessment on behalf of the M.U.R.

Each package contains:

- a) a personal data sheet that the candidate must complete without any identification code;
- b) the questions relating to the admission test, bearing the identification code of the package and n. 2 sheets dedicated to draft;
- c) a reply form, with the same identification code as the package;
- d) a sheet on which are affixed the identification code of the package as well as the indication of the University and the degree course to which the test refers;

The replacement that may become necessary during the test of even one of the documents indicated in points b) and c) entails the complete replacement of the package as they are marked by the same identification code as the package. Any corrections or signs made by the candidate on the personal data sheet do not entail its replacement. The replacement of the personal data sheet is provided only where there are difficulties in identifying the candidate: in that case, the Commission will replace the personal data sheet by taking it from one of the reserve packages and the operation will be recorded in the classroom minutes. In any case, the replacement of the personal data sheet never entails the replacement of the entire envelope.

Before the start of the test, the President of the Examination Commission or the classroom manager at headquarters or abroad, draws four students from among the candidates present in the classroom and checks with them the integrity of the boxes, then proceeds to opening of the same and the distribution of packages in relation to the number of participants; gives each candidate the "instruction sheet for completing the answer form". The "instruction sheets for completing the answer form" are made available to candidates before the test is carried out. The President of the Examination Committee or the head of the classroom draws up and signs, for the operations carried out previously, a specific declaration showing:

- 1.1) the verification of the integrity of the boxes;
- 1.2) the number of packages assigned;

**1.3)** the number of unused packages;

**1.4)** the number of packages possibly replaced, with the relative motivation.

This declaration must also be signed by the four students drawn.

On the day of the exam, the President of the Commission or the head of the classroom also draws up the minutes of the classroom, prepared according to the format made available by the M.U.R.

In the event that one or more candidates report any irregularities regarding the package received, the President of the Examination Commission or the classroom manager checks its reliability and, if necessary, replaces the package itself. This operation must appear in the classroom minutes together with the related reasons. The replaced packages are not to be considered waste material, but must be returned on the same day of examination to CINECA.

Candidates, to fill in the answer form, must use only an indelible black pen, supplied by this University or by the foreign branch, and have the possibility to correct one (and only one) answer already given to a question, having take care to completely blackout the previously marked box and choose another one: in any case, an X (ics) must appear in only one of the five boxes so that the will of the candidate is clearly manifested; otherwise no answer is deemed to have been given.

The answer form provides, in correspondence with the progressive number of each question, a small circular figure that the student must cross only if he intends to give certainty of the will not to answer. This indication, once affixed, cannot be changed anymore; if the candidate does not put any sign in the answer boxes, even if he does not tick the circular figure, the answer is considered not given.

On the answer form - for the purpose of determining the relative score - there must be no signature or any identification mark, under penalty of cancellation of the test.

At the end of the test, the candidate goes to the dedicated station equipped with a special black pen, prepared by the Commission, placed at a suitable distance from it, and is invited to choose a pair of identical adhesive labels present there. Each label must be applied, exclusively by the candidate, who must ensure that the alphanumeric codes printed on the labels of the chosen pair, on the answer form and on the personal data sheet correspond. The candidate must therefore obligatorily sign, on the duly completed personal data sheet, the declaration of truthfulness of the personal data and correspondence of the codes of the labels applied to the personal data sheet and to the answer form. At the end of these operations, the candidate must insert the personal data sheet in the sealed container - where the facsimile of the personal data sheet appears on one side - present in the dedicated station and go to the Commission station where he inserts the answer form in the closed container provided therein.

In addition to the answer form and the personal data sheet, the candidate must also deliver to the Commission the sheets containing the questions relating to the test and the control sheet of the package.

The President of the Commission or the head of the classroom then provides:

- to insert all the answer forms in one or more containers that must be closed in the presence of the same candidates called to verify the integrity of the boxes or, in the event of their impossibility, in the presence of four other candidates drawn by lot;
- to insert all the personal data sheets in one or more containers, provided by CINECA (where the facsimile of the personal data sheet appears on one side) which must be closed in the presence of the same candidates called to verify the integrity of the boxes or, in case of supervening impossibility of these, in the presence of four other candidates drawn by lot;
- to affix a signature on the closing flaps of the or on the labels used for closing the containers and to invite the four students to sign on the same flaps;
- to pack other containers in which to enclose the packages returned because they have been replaced, the packages from which the personal data sheets for replacement have been taken as well as the unused packages, the declaration referred to in this article and a copy of the classroom minutes, with the classroom lists of candidates.

Candidates are prohibited from keeping with them, during the tests, bags or backpacks, books or notes, paper, mobile phones and other electronic tools, including "smartphones", "smartwatches", "PDAs", "webcam", "tablets" and portable personal computers of any type able to connect outside the classrooms, test sites, through "wireless" connections, or to the normal telephone network with UMTS, GPRS, GSM protocols, under penalty of cancellation of the test. Therefore, candidates are prohibited from introducing within the competition venue: mobile phones, "smartphones", smartwatches, PDAs and other similar tools; candidates who are in possession of such equipment must deliver them to the identification staff before entering the classroom or sector where the candidate was assigned to perform the test. It is also forbidden to introduce manuals, school texts, handwritten notes and reference material. During the test, competitors are not allowed to communicate verbally or in writing, or to relate with others, except with the members of the Commission or the Supervisory Committee or with the technical-administrative staff responsible for surveillance. The candidate who infringes the provisions of this article is canceled by the Commission and the same is excluded from the competition.

#### **ART. 8) CAUSES FOR CANCELLATION OF THE TEST**

The tests are subject to cancellation and the candidate is excluded from the competition if:

The cancellation of the test is ordered by the Commission. In the cases referred to in numbers 1), 2), 3) 4) and 5) the CINECA does not determine the score of the canceled test.

The test is also subject to cancellation in case of use by the candidate, after the end of the test, of pens, pencils or any other suitable writing instrument in order to make changes, additions and / or corrections to the answer form, and in the event that the personal data sheet shows erasures and / or abrasions or indicates data which, at the discretion of the Commission, do not allow to trace the author of the paper with certainty.
